DETAILED ACTION

Specification

1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

2. Claims 91 is objected to because of the following informalities:

Claim 91, line 4, "method" should be replaced by "the method". The same comment applies to any claim reciting similar limitation.

Appropriate correction is required.

3. Claims 73 and 74 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 73 recites "the **timing controller comprises the error generator**" this is not further limiting since claim 72 clearly recites "the **error generator is in communication with** an output of the **second filter** and inputs of the **timing phase controller** and the gain controller". Claim 74 recites "the **gain controller comprises the error generator**" this is not further limiting since claim 72 clearly recites "the **error generator is in communication with**

an output of the **second filter** and inputs of the timing phase controller and **the gain controller**". **No dependent claim should remove any limitations from a base claim.**

Claim Rejections - 35 USC § 112

4. Applicant's response has overcome the 112 second paragraph rejection.

Claim Rejections - 35 USC § 101

5. Applicant's response has overcome the 101 rejection.

Allowable Subject Matter

6. Claims 1-72 and 75-140 are allowed. However, the claims must be amended if objected above in order to overcome such objection.

Response to Arguments

7. Applicant's arguments filed 8/14/07 have been fully considered but they are not persuasive. It is alleged that claims 73 and 74 have been amended to overcome the outstanding claim objection. However, it is noted that the change made to claim 72 is insufficient to overcome the claim objection for the reasons specified in paragraph 3 above.

Conclusion

8. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
